

Active Municipal Solid Waste Landfills in Texas

Landfill Types and Waste Accepted

Type I landfills are authorized to accept all types of municipal solid waste. Type IV landfills may only accept brush, construction and demolition debris, and rubbish. Type IV landfills may not accept putrescible (organic) waste, waste from very small quantity hazardous waste generators, or household waste.

Landfills with the designation "AE" in the landfill type are "arid exempt" facilities. AE landfills normally are limited in the amount of waste they are authorized to accept during a year. However, in disaster situations, AE landfills may obtain authorization from TCEQ to accept amounts greater than the annual limit.

Resources for Locating a Landfill

The following table lists active municipal solid waste landfills by county. Use the [TCEQ Municipal Solid Waste Viewer](https://www.tceq.texas.gov/gis/msw-viewer)¹ to find the location and information about a landfill. Additional information about each landfill is available in the [TCEQ Central Registry](https://www.tceq.texas.gov/goto/centralregistry)²; select the Program ID Search option, then on the search form enter the facility *Permit No.* in the *Program ID* field of the search form, and select *Municipal Solid Waste Disposal* in the *Program* field.

Active municipal solid waste landfills in Texas, May 2024.
